PROFESSIONAL SUMMARY

3rd-year B.Tech CSE student specializing in AI/ML & Data Science with hands-on experience in full-stack MERN development, computer vision, and RAG-based AI systems. Completed a MERN Stack Developer internship building production-grade, secure web applications. Passionate about solving real-world problems through intelligent systems and scalable software.

TECHNICAL SKILLS

Frontend: React.js, Redux Toolkit, HTML5, CSS3, JavaScript (ES6+), Responsive Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, CRUD Operations

Database: MongoDB, Mongoose, ChromaDB (Vector DB)

AI & ML: LangChain, RAG Architecture, TensorFlow/Keras, OpenCV, MediaPipe, Streamlit

Languages: JavaScript, Python, TypeScript (Learning)

Tools: Git, GitHub, VS Code, Postman, Cloudinary, Multer

EXPERIENCE

MERN Stack Developer Intern | *Softnexus Technology* | Dec 2024 – Jan 2025

- Built a full-stack Product Management System using MongoDB, Express, React, and Node.js with end-to-end CRUD functionality for inventory management.
- Improved data load performance by 50% through server-side pagination and optimized global state management using Redux Toolkit.
- Secured API endpoints and frontend routes with JWT authentication and Bcrypt password hashing.
- Integrated Multer and Cloudinary for scalable file uploads and cloud image storage; implemented input validation via Express-Validator with robust error handling.

PROJECTS

Smart Library Shelf Management App — *JavaScript, React.js, Tailwind CSS, Supabase* | Ongoing

- Designing and developing a web application that uses camera or gallery image input to identify books and intelligently map them to their designated library shelves using a curated dataset.
- Building a responsive React.js frontend styled with Tailwind CSS, backed by Supabase for real-time database and storage — currently in active development as a minor academic project.

Real-Time Sign Language to Speech Translator — *Python, TensorFlow/Keras, OpenCV, MediaPipe*

- Engineered a real-time gesture recognition pipeline using MediaPipe and OpenCV for precise hand landmark tracking.
- Trained a custom LSTM Neural Network on a self-built dataset, achieving 95% gesture classification accuracy.
- Implemented a multi-threaded text-to-speech engine (pyttsx3) for seamless, low-latency audio output.
- Currently working on a research paper based on this project, exploring improvements in real-time sign language recognition using deep learning.

AI-Powered RAG Chatbot (PDF Assistant) — *Python, LangChain, ChromaDB, Groq API, Streamlit*

- Developed a full-stack RAG application enabling users to upload and query PDF documents conversationally.
- Integrated Groq's Llama-3 70B model for high-speed inference with HuggingFace embeddings stored in ChromaDB; deployed live on Streamlit Cloud.

College Event Management System — *React, Node.js, Express, MongoDB*

- Delivered a full-stack platform supporting user authentication, event registration (solo/team), pass purchase & verification, and admin notifications.

CERTIFICATIONS

- AI Fundamentals with IBM SkillsBuild** — Cisco Networking Academy
- Networking Basics** — Cisco Networking Academy
- Python Essentials 2** — Cisco Networking Academy
- Azure AI Fundamentals (AI-900)** — Microsoft
- Responsible and Safe AI Systems** — NPTEL

CORE STRENGTHS

Analytical Thinking • Problem-Solving • Adaptability • Effective Communication • Rapid Skill Acquisition

EXTRACURRICULAR ACTIVITIES & INTERESTS

- Consistently explored self-directed learning through Cisco NetAcad, NPTEL, and Microsoft Learn, earning multiple professional certifications.
- Contributed to team-based academic projects, taking ownership of architecture decisions and coordinating deliverables across cross-functional student groups.
- Avid basketball player — enjoy the game for its teamwork, strategy, and competitive energy; also an enthusiastic fan of anime, movies, and web series as a way to unwind and fuel creativity.

EDUCATION

B.Tech in Computer Science & Engineering (AI/ML & Data Science)

GSFC University, Gujarat | Currently 3rd Year (2022 – 2026)
